April 28, 2009

The Honorable Stephanie Herseth Sandlin
House of Representatives
331 Cannon House Office Building
Washington, DC 20515-4101

Dear Representative Herseth Sandlin:

Thank you for the opportunity to discuss the City of Sioux Falls' public transportation needs as they relate to the proposed *Safe, Accountable, Flexible, Efficient Transportation Equity Act* for 2010–2014.

We are requesting your considering for funding involving the design and construction of a City Intelligent Transportation System (ITS). This ITS project will include several components including a central traffic operations area and supporting infrastructure, a citywide fiber optic cable, radio and microwave network connecting City facilities and traffic signals, and the installation of a traffic surveillance camera network for improved traffic management.

I strongly support the proposed investment in a City Intelligent Transportation System.

This project is currently included in the City's Capital Improvement Program, and as such will be available for public comment on many occasions in 2009.

Again, I appreciate your interest in Sioux Falls and our transportation needs, as well as your past support of our city. I very much enjoy working with you. Please let me know if you would like to discuss this project further.

Sincerely,

Dave Munson
Mayor
